

As announced during the lab sessions, we need to evaluate your peers in the group. Your work on the project is of course considered as a teamwork, but it is reasonable to assume that not all of the team members contributed equally through the semester. Therefore you need to fill in the form attached to this e-mail and to evaluate the work/contribution/commitment of your other team members and yourself ;)

Your feedback is considered as highly confidential, thus it will only be taken into account when evaluating the role group and when grading your work on the project. If most of the team members contributed to a similar extent, then we tend to give the same amount of points to everyone in the group. Otherwise, if there was an issue in the group, and some of the team members did not contribute at all, or not as expected, then it is very important that I am aware of this when evaluating your work.

Please fill in the form (it is mandatory to attend your exam), not later than 21/06/2024 23u59
